

DAIRYCOAT

- Description:** This is a non toxic hard wearing product.
- For Use On:** Formulated for the inside of cowshed walls and floors. It can withstand the abuse of high pressure water and still retain good adhesiveness and lasting ability. Also highly recommended for paving and food processing walls etc.
- Appearance:** Full Gloss.
- Durability:** Excellent.
- Heat Resistance:** Up to 120°C.
- Application:** Either with spraying, brushing or rolling.
- Coverage:** Approximately 9 square metres per one litre (100 square feet per one litre).
- Dry Time:** Approx. half an hour between coats. **Allow plenty of ventilation**
- Thinner:** Dairycoat Thinners Slow.
- Clean Up:** Dairycoat Thinners Slow.
- Colour Range:** 99/100 BS5252
- Container Sizes:** 1 Litre, 4 Litre, 10 Litre, 20 Litre
- Surface Preparation:** As with any product, proper preparation is essential.
- a) Make sure all surfaces are **Clean and Dry – This is imperative.**
 - b) **Dirt and Grime:** Wash and scrub with water and wash again. Leave to dry.
 - c) **Oily substances:** Use suitable solvent eg Dairycoat Thinners. Wash and scrub with water and wash again.
 - d) If the surface is old and there is existing paint, we suggest that you water blast. If this product is to be painted on wood, we advise the use of an approved undercoat before application.
 - e) Apply this product on a declining temperature between **5°C- 20°C**, this allows solvent to be sucked into the substrate. If applied in the heat of day small pin holing can form on surface as water vapour comes out of substrate.
 - (f) Keep food stored away from area being painted as solvent fumes may taint.
- Coating Format:** It is best to brush in a thinned first coat, by **10% to 15%** to ensure a good key for your successive coats. A total of 3 coats is recommended.

THESE SPECIFICATIONS ALSO APPLY TO DAIRYCOAT WHITE, BLACK, DEEP BASE, ULTRA DEEP BASE, CLEAR BASE, CLEAR FLAT AND SWIMMING POOL BLUE.
